2.	In the above-mentioned regions, the children have had their own schools, taught by Greek partisan teachers. The most important subject in the educational program is Marxist-Leninist teaching.							
3.	All children undergo military training similiar to that given in military schools, after they reach the age of 9.							
40	The children in the 9 to 13 age groups are instructed in the handling of time bombs with watch mechanisms, so that they can penetrate designated military posts, buildings, and communication installations.
